

## MENTOR PROGRAM

In our efforts to assist students with their career planning, Career Services has activated the Alumni Mentor Program. This program will allow current GMC students, with permission, to connect with a mentor to learn more about various occupations by receiving career information and valuable advice.

Alumni mentors provide information about their career path, answer related questions, and offer advice to students who are beginning to explore potential careers. Through the College Central online module, alumni mentors create a professional profile that will be visible to students who have received access to the system. After viewing your profile, students may email you to inquire about your current position and career path. As an alumni mentor, you could expect to be contacted by a student who may be interested in learning more about your field of work by asking questions such as:

- How did you get started?
- What do you like best/least about your current position?
- What is it like working at your company?
- What advice do you have for a student who is interested in getting into your field?

We believe that this program will benefit students by giving them an opportunity to learn more about the world of work by connecting with professionals in their field of interest. We hope that you would be interested in serving as a resource to our current students. If you have any questions about the program or would like to become a mentor, contact Career Services at 215-646-7300 x230 or [careerservices@gmc.edu](mailto:careerservices@gmc.edu).

Thank you!

Sincerely,

GMC Career Services Staff
