Dear Kadelpians,

Because of our desire to increase participation in the Society we have decided to elaborate the requirements for initiation and active membership. Many people join because it looks very good on your resume to belong to a prestigious organization like KDP – *An International Honor Society in Education!* This is true; however, being an active member requires more than just qualifying for initiation.

The Society has so much to offer! But, you need to be there! Please visit our material on the GMC Website at:
