# Strategic Planning

Strategic planning is an organization's process of defining its strategy, or direction, and making decisions on allocating its resources to pursue this strategy. Strategy has many definitions, but generally involves setting goals, determining actions to achieve the goals, and mobilizing resources to execute the actions. There are three levels of institutional planning at GMC: (1) strategic planning level (2) operational planning level, and (3) tactical planning level. At the Strategic level, the President provides the overall intent and approves the strategic goals; at the operational level, the Executive and Senior Vice Presidents develop operational plans to achieve the President's intent and goals, and at the tactical level, individual tasks are assigned to members within the institution to create action and departmental improvement plans to implement the programs. The institution conducts systematic, on-going reviews, and through this process, that GMC reviews outcomes of its plan, improves institutional quality and accomplishes the mission. The planning process informs decision making for the development of the budget.

Within our Strategic Plan is where you will find the college's strategic initiatives and goals. As stated earlier, GMC's strategic initiatives are our "Four Big Ideas": Contribute to Student Success, Grow Enrollments, Think and Act as One Institution, and Invest in the Future of GMC. Within each of these initiatives, there is a strategic goal. These strategic goals are the framework for determining the operating initiatives and goals that are formed at the operational planning level. Outlined below you will find an overview of GMC's strategic plan as defined by strategic initiatives and goals, and operating initiatives and goals.

**CONTRIBUTE TO STUDENT SUCCESS:** Strategic Goal: By 2029, increase graduation / transfer rate to 80% from four operating initiatives, which are, increase the graduation rate, increase transfer out rate, increase the number of graduates, and increase course completion rates.

**GROW ENROLLMENTS:** Strategic Goal: By 2029, increase full-time equivalent (FTE) enrollment to 9,152 students from four operating initiatives, which are – military student / dependent expansion, new program expansion, new campus expansion, and dual enrollment expansion.

**THINK AND ACT AS ONE INSTITUTION:** Strategic Goal: By 2029, 100% of all GMC policies/procedures are standardized from two operating initiatives, which are vertical alignment, and branding.

**INVEST IN THE FUTURE OF GMC:** Strategic Goal: By 2029, the valuation of the GMC Foundation will be \$80 million dollars from three operating initiatives, which are - establishing a capital campaign, building public/private partnerships and optimizing our return on investment (ROI).

Financial aid awards at Georgia Military College are based on scholastic ability and/or financial need. Students may receive aid in the form of scholarships, grants, loans, or work opportunities. All students are encouraged to apply. Programs with limited funding are awarded according to the earliest application date.

Many students do not have the financial resources to accomplish their educational objectives. Through the financial aid programs, Georgia Military College makes every effort to assure that no qualified student will be denied the opportunity to attend school because of lack of funds. Each year over 80 percent of Georgia Military College students receive some form of financial aid.

# The “New Normal”

## ***Coronavirus (2019-nCoV) Outbreak***

*First identified in Wuhan, China in December 2019*

Novel coronavirus spreads like other respiratory illnesses such as the flu or a common cold, primarily through coughing or sneezing by those who already have symptoms. The best way to prevent infection with any respiratory virus is to use the same preventive strategies used during a normal cold and flu season: get a flu shot every year, wash hands regularly with warm water and soap, cover coughs and sneezes or cough into the elbow, and stay home when experiencing symptoms of illness.
