A Letter from GMC Nurse Director, Wendy Smith

GMC Students, faculty, and staff,

We at GMC Health Services are continuing to monitor the emerging cases of the COVID-19 coronavirus in our state. We are aware that this will most likely affect all of our campuses.

We want you to know that GMC Health Services, along with all campuses, will be closed for business until Tuesday March 31st due to the Coronavirus outbreak. However, we are available by phone as well as email if you have questions or concerns or are needing guidance on what to do. If you feel that you may have contracted the COVID-19 virus or have been exposed, please do not go to the ER or your doctor's office unannounced, as you may expose others. If you are experiencing a medical emergency, please call 911. It is important that if you feel you are affected, that your primary care physician or local health department be notified. Information for the state of Georgia is available at (866) PUB-HLTH.

We are hopeful that everyone stays healthy. The health and well-being of our staff and students remains our top priority as each of you continues with your online classes.

Wendy Smith, BSN, RN
GMC Health Services Nurse Director
