“Because all BAS courses are offered online, it is convenient for my busy schedule.”

Carl Sandy, student, GMC Online Campus

The BAS in Supervision and Management degree program is designed to prepare students for career advancement opportunities in supervisory and management roles and positions within a variety of businesses and industries. Students who have earned an Associate of Applied Science (AAS) degree will have the opportunity to continue their education and prepare for advancement opportunities within their technical field.

Courses are available online or in a traditional classroom setting.

Students completing this program will have the skills and knowledge required to:

- become successful managers and leaders
- increase earning potential
- expand career opportunities.
