Elevate your professional skills

Bachelor of Applied Science in SUPPLY CHAIN MANAGEMENT and LOGISTICS

“I have the option of taking classes in the evening or online. That flexibility helps since my daughter and I both have busy schedules.”

Chantel Carreras, Augusta Campus

The BAS in Supply Chain Management and Logistics is designed to prepare students for career advancement opportunities in supply chain management, logistics, warehousing, distribution, and other related fields. Students who have earned an Associate of Applied Science (AAS) degree will have the opportunity to continue their education and prepare for advancement opportunities within their business related field.

Courses are available online or in a traditional classroom setting.

Students completing this program will have the skills and knowledge required to:

- become successful managers and leaders
- increase earning potential
- expand career opportunities.
