About

Georgia Military College is an open admissions public-independent liberal arts college comprised of a traditional Main Campus located in Milledgeville, Georgia, a Global Online Leadership College, and 13 Community College satellite campuses. Georgia Military College believes in concurrently developing the intellect and elevating the character of its students. Students are immersed in an environment that provides opportunities to strengthen their ethics and character, improve their ability to think critically, and strengthen their leadership skills. The aim of this blending of intellect and character is to produce educated citizens and leaders who are equipped and committed to making a difference in the communities where they live, work, and study. The continuation of this historic character-based focus from its 1879 beginnings is a distinguishing characteristic of this twenty-first century educational institution, which is Georgia Military College.

A Brief History of Georgia Military College

Georgia Military College (GMC) was established in 1879 by act of the Georgia General Assembly as a, public, nonaffiliated University System of Georgia (USG), educational institution. Initially named “Middle Georgia Military and Agricultural College,” the college was renamed “Georgia Military College” in 1900. In the establishing act, the Georgia General Assembly stipulated that the College was to be located in Milledgeville, Georgia on the grounds of the former 1803-1868 state capital.

From its inception in 1879 until 1952, the College served as a high school for the city of Milledgeville and Baldwin County. In 1930, the Georgia Military College Board of Trustees, with state of Georgia approval, added the junior college program. In 1946, the United States War Department designated GMC a military institution—a place where federally funded and approved military training would be conducted. In 1950, GMC became a designated Military Junior College with a full ROTC program. Beginning in 1971 with the establishment of statewide supporting campuses and extension centers, Georgia Military College became an essential provider of secondary and post-secondary educational opportunity open to the citizens of Georgia and to the men and women serving

in Georgia in the armed forces of the United States. Unique within the state of Georgia, Georgia Military College was authorized by 1980 Public Law to host a U.S. Army-conducted and funded “Early Commissioning Program (ECP). A GMC ECP cadet who completes the academic and military requirements of the ECP program may be appointed upon graduating from GMC at the end of two years as reserve officers in the Army in the grade of Second Lieutenant.

Our Mission

The mission of Georgia Military College (GMC) is to produce educated citizens and contributing members of society in an environment conducive to the development of the intellect and character of its students, regardless of location or method of delivery. College students are offered a liberal arts-based, two-year undergraduate curriculum designed to support student attainment of an associate degree and prepare students for transfer to four-year colleges and universities. Students with an associate of applied science degree are offered a curriculum designed to support student attainment of a Bachelor of Applied Science degree. For selected college students who enroll in the Reserve Officer Training Corps (ROTC), and preparatory school students in the Junior ROTC program, GMC includes a military training and education component.

Our Vision

In its Vision 2029, GMC will be a nationally recognized leader providing a character-based higher education, improving students’ personal well-being and giving hope for a brighter future. The vision is achieved by being accessible to any student desiring a character-based college level education, being the best two-year college in the state of Georgia and among the top five in the nation, being nationally recognized as a “best value” college, being recognized as a military friendly school, being nationally recognized in the top ten fastest growing community colleges, being nationally recognized as a leader in the innovation and delivery of individual learning support services, being nationally recognized as a leader in the innovation of programs, and by increasing scholarship endowments to make education affordable.
